

## 4-axled stainless steel tank wagon

Type: Zacens 41m<sup>3</sup> • for molten sulphur

Number of axles:	4 axles
Length over buffers:	14,400 mm
Distance between bogie pivots:	9,360 mm
Volume:	41 m <sup>3</sup>
Heating system:	Yes
Insulation:	Yes
Material:	1.4301
Tank code:	L4 (10) DH
Type of dome:	4-point locked dome DN 500
Characteristics:	Suitable for the transportation of molten sulphur
