

4-axled stainless steel tank wagon

Type: Zagns, 81 m³

Number of axles:	4 axles
Length over buffers:	15,900 mm
Distance between bogie pivots:	10,860 mm
Volume:	81 m ³
Heating system:	No
Insulation:	Yes
Material:	1.4318
Tank code:	P15BH
Type of dome:	man hole at the front side
Filling / discharge:	gas phase DN 80/50 / liquid phase DN 80
Bottom discharge valve:	gas phase DN 80/50 / liquid phase DN 80
Characteristics:	Suitable for the transportation of ethylene oxide, emergency closure of bottom discharge valve accessible from all 4 sides, provision for installment of pressure / temperature sensors and GPS
